SCHOOL OF APPLIED HEALTH SCIENCES

BROOKS REHABILITATION

COLLEGE OF HEALTHCARE SCIENCES

Bachelor of Science in Kinesiology Program Outcomes

Upon completion of the Kinesiology Degree, the graduate will be able to:

- Synthesize knowledge from the liberal arts and sciences, and the kinesiological sciences to understand global perspectives, stimulate critical thinking, and use current technologies.
- Demonstrate internship/clinical excellence to provide caring, compassionate, and knowledge-based services to people in a variety of physical activity settings.
- Utilize ethical principles and critical decision-making skills to function as a leader.
- Engage in lifelong learning and scholarly inquiry to continue professional career development. Compose a plan for professional development and lifelong learning that will continue to advance the knowledge level in the kinesiological sciences.
- Promote healthy lifestyles, disease treatment, and prevention through physical activity.
- Incorporate evidence-based knowledge and theory into kinesiological skills and practice.
- Use learned leadership skills to assess, plan, and deliver evidence-based care to populations.
